NUTRILO PRODUCT RANGE

CONTRACT MANUFACTURER FOR PRIVATE LABEL AND INDIVIDUAL PRODUCTS

MADE IN GERMANY

nutrilo

VITAMINS AND MORE

INNOVATIVE
QUALITY CONSCIOUS
COMPETENT
RELIABLE
FLEXIBLE
LOYAL
TRUSTWORTHY

are some of the main characteristics that have distinguished NUTRILO, under the roof of the PHW Group, as a partner of national and international customers for almost 40 years.

Your idea is our mission

As a contract manufacturer for first-class food supplements and functional food, we accompany our partners from the development of their individual formulation to the finished product.

A high level of expertise and purchasing competence ensure that only raw materials and recognized active ingredients of the highest quality are used and that a wide variety of flavors is available to turn your idea into a high-quality product in the dosage form of your choice as a tablet, capsule, drinking powder or direct powder and to package it according to your specifications.

Quality is not just a word, it's a passion

We believe you are what you do, and that's why we're demanding the highest quality, at every step, for every product. To deliver the best products that allow you to thrive.

In order to live up to this promise, but also to the demands of our partners and their customers, we obtain, among other standards, certifications according to the global standards of IFS Food, which are regularly checked by auditors of accredited certification bodies and confirmed at the highest level.

Finished formulations

Obviously, we do not only offer the possibility to implement your ideas or to use the products presented here as inspiration.

As a pure brand owner without own production facilities, or as a manufacturer who wants to keep his own production lean in order to utilize capacities more economically or to bring new products to the market without having to expand his own production, we offer you the possibility to order your own formulations or formulations provided by us in full service.

The partner decides the production level to be supplied by NUTRILO. Everything is possible, right up to the finished, labeled and packaged end product.

Do not hesitate to contact us and convince yourself of our versatility!

The information provided in the descriptions of the respective products does not claim to be complete. The conformity of the products with the applicable rules, regulations, laws, as well as the marketability (in particular on permitted ingredients, dosages and health claims) in individual countries was not verified by Nutrilo and must be carried out and ensured by the customer for distribution and marketing in the respective countries.

Vitamins and minerals are extremely important for the performance of the human organism. They are substances that the body desperately needs, but cannot produce itself – with a few exceptions. Intensive physical efforts, stress, unbalanced nutrition and dieting can cause an increase of their demand. Our products are high quality food supplements, produced and controlled according to international guidelines of quality.

PURAFIT VITAMIN C

EFFERVESCENT TABLETS

Vitamin C is an **essential vitamin** that cannot be produced by the body itself.

– Vitamin C contributes to the normal function of the immune system.

– Vitamin C contributes to normal collagen formation for the normal function of blood vessels, bones and cartilage.

– Vitamin C contributes to normal psychological function.

Content: 20 tablets per tube
Flavour: Lemon

ART.-NO. 79-680		ART.-NO. 79-727		ART.-NO. 79-764	
Content per tablet (4.5 g)		**Content** per tablet (4.3 g)		**Content** per tablet (4.3 g)	
Vitamin C	180 mg (225 % RI*)	Vitamin C	240 mg (300 % RI*)	Vitamin C	500 mg (625 % RI*)

PURAFIT VITAMIN C **1000**

EFFERVESCENT TABLETS

High dosage of vitamin C for a strong immune system.

– Vitamin C contributes to the normal function of the immune system.

– Vitamin C contributes to maintain the normal function of the immune system during and after intense physical exercise.

Content: 20 tablets per tube
Flavour: Orange

ART.-NO. 79-1476	
Content per tablet (4.3 g)	
Vitamin C	1000 mg (1250 % RI*)

*DAILY REFERENCE INTAKES according to the Regulation (EU) No 1169/2011 of the European Parliament

PURAFIT CALCIUM **1000** + D_3

EFFERVESCENT TABLETS

Calcium is quantitatively the most important mineral in the human organism. The body stock is about one kilogram. About 99 percent of it is bound in the skeleton (and enamel) and ensures the strength and stability of these tissues. This is why calcium is often referred to as a „bone mineral“.

– Calcium contributes to normal muscle function and to the maintenance of normal bones.

Content: 13 tablets per tube
Flavour: Orange

ART.-NO. 91-13535

Content per tablet (7.0 g)			
Calcium	1000 mg (125 % RI*)	Vitamin D_3	5 µg (100 % RI*)

CUXAN MAGNESIUM

EFFERVESCENT TABLETS

The body cannot produce magnesium itself and is therefore dependent on a regular supply.

– Magnesium contributes to electrolyte balance and to normal protein synthesis.

– Magnesium contributes to normal energy-yielding metabolism and contributes to normal functioning of the nervous system.

– Magnesium contributes to normal muscle function.

Content: 20 tablets per tube
Flavour: Orange (187,5mg Magnesium) and Peach (200 mg Magnesium)

ART.-NO. 79-725

Content per tablet (4.0 g)	
Magnesium	187.5 mg (50 % RI*)

ART.-NO. 79-1333

Content per tablet (4.0 g)	
Magnesium	200 mg (53 % RI*)

CUXAN CALCIUM + VITAMIN D + K

EFFERVESCENT TABLETS

Calcium, vitamin D_3 and vitamin K_1 contribute to the maintenance of normal bones.

– Calcium and vitamin D help to reduce the loss of bone mineral in post-menopausal women. Low bone mineral density is a risk factor for osteoporotic bone fractures.

– Because vitamin K is also involved in normal bone metabolism, the combination with calcium and vitamin D makes particular sense.

Content: 20 tablets per tube
Flavour: Mango

ART.-NO. 79-875

Content per tablet (4.75 g)					
Calcium	500 mg (62.5 % RI*)	Vitamin D_3	5 µg (100 % RI*)	Vitamin K_1	75 µg (100 % RI*)

PURAFIT IRON AND VITAMINS

EFFERVESCENT TABLETS

– One effervescent tablet provides 100 % of the reference value for iron, vitamin C, folic acid and vitamin B12.

– Iron contributes to the normal formation of red blood cells.

– Vitamin C and vitamin B12 support normal energy metabolism, folic acid contributes to normal blood formation.

– Vitamin C increases iron absorption

Content: 20 tablets per tube
Flavour: Cherry

ART.-NO. 79-1328

Content per tablet (4.2 g)					
Iron	14 mg (100 % RI*)	Folic acid	200 µg (100 % RI*)	Vitamin B_{12}	2.5 µg (100 % RI*)
Vitamin C	80 mg (100 % RI*)				

*DAILY REFERENCE INTAKES according to the Regulation (EU) No 1169/2011 of the European Parliament

*DAILY REFERENCE INTAKES according to the Regulation (EU) No 1169/2011 of the European Parliament

CUXAN IRON

DIRECT POWDER FOR CONSUMPTION WITHOUT WATER

A different way to bring vitamins and minerals into the body.

High availability: In addition to its requirement for haemoglobin and red blood cell formation, iron is also needed to keep a normal immune system.

– Vitamin C increases iron absorption.

– Iron contributes to normal formation of red blood cells and haemoglobin and to normal oxygen transport in the body.

Content: 28 sticks per box
Flavour: Pomegranate

ART.-NO. 46-375

Content per stick (2.5 g)			
Iron	14 mg (100 % RI*)	Vitamin C	80 mg (100 % RI*)

CUXAN MULTIVITAMIN + MINERALS

EFFERVESCENT TABLETS

A sufficient supply of vitamins and minerals is a precondition for health and well-being. This effervescent tablet contains carefully selected vitamins and minerals and supports a balanced diet.

Content: 20 tablets per tube
Flavour: Mango

ART.-NO. 79-1329

Content per tablet (4.5 g)					
Magnesium	56.25 mg (15 % RI*)	Vitamin E	12 mg (α-TE) (100 % RI*)	Vitamin B_1	1.1 mg (100 % RI*)
Calcium	120 mg (15 % RI*)	Pantothenic acid	6 mg (100 % RI*)	Biotin	50 µg (100 % RI*)
Phosphorus	105 mg (15 % RI*)	Vitamin B_6	1.4 mg (100 % RI*)	Folic acid	200 µg (100 % RI*)
Vitamin C	80 mg (100 % RI*)	Vitamin B_2	1.4 mg (100 % RI*)	Vitamin B_{12}	2.5 µg (100 % RI*)
Niacin	16 mg (NE) (100 % RI*)				

PURAFIT MULTIVITAMIN

EFFERVESCENT TABLETS

Food supplement for preparing a drink with the most important vitamins.

One effervescent tablet provides 100 % of the reference value for the best care of your body

Content: 20 tablets per tube
Flavour: Orange

ART.-NO. 79-728

Content per tablet (4.5 g)					
Vitamin C	80 mg (100 % RI*)	Vitamin B_6	1.4 mg (100 % RI*)	Biotin	50 µg (100 % RI*)
Niacin	16 mg (NE) (100 % RI*)	Vitamin B_2	1.4 mg (100 % RI*)	Folic acid	200 µg (100 % RI*)
Vitamin E	12 mg (α-TE) (100 % RI*)	Vitamin B_1	1.1 mg (100 % RI*)	Vitamin B_{12}	2.5 µg (100 % RI*)
Pantothenic acid	6 mg (100 % RI*)				

CUXAN A–Z

EFFERVESCENT TABLETS

Many important active ingredients in one tablet. All the vitamins, minerals and trace elements that are important for the body combined into a valuable vitamin A–Z complex.

Content: 20 tablets per tube

*DAILY REFERENCE INTAKES according to the Regulation (EU) No 1169/2011 of the European Parliament

In the cold season, it is particularly important to ensure adequate nutrient supply. Vitamins and trace elements are relevant for the function of the human organism. Our body's defenses are exposed to numerous daily stress. Vitamin C and zinc support the normal function of the immune system and help protecting the cells against oxidative stress, which can be caused by free radicals.

CUXAN-I

LOZENGES

– Vitamin C and Zinc contribute to the normal function of the immune system.

Content: 60 tablets
Flavour: Ginger-Honey or Ginger-Orange

ART.-NO. 80-1715/K20

Nutritional supplements play an important role for people who have chosen a vegan diet. Although a balanced vegan diet usually provides all the necessary nutrients, certain nutrients that are mainly found in animal products can be more difficult to obtain. In such cases, supplements can provide valuable support to ensure that vegan nutritional needs are met.

PURAFIT ELECTROLYTE

EFFERVESCENT TABLETS

Tasty and refreshing sports drink during and after endurance training – magnesium is a mineral that contributes to electrolyte balance and normal muscle function.

Content: 20 tablets per tube
Flavour: Orange or lemon

ART.-NO. 79-1338 orange taste
ART.-NO. 79-1339 lemon taste

Content per tablet (4.5 g)					
Chloride	180 mg (22.5 % RI*)	Potassium**	70 mg (3.5 % RI*)	Sodium	300 mg
Magnesium	120 mg (32 % RI*)				

*DAILY REFERENCE INTAKES according to the Regulation (EU) No 1169/2011 of the European Parliament
**Please note: Minerals less than 15% NRV/portion are not considered as a significant amount and should therefore not be declared.

PURAFIT ELECTROLYTE

DRINKING POWDER

In hot weather it is important that the body is supplied with sufficient fluids and minerals – whether during sports, on the Work or school. However, as important minerals are quickly sweated out and are not produced by the body itself.

They have to be replenished with an electrolyte drink. The electrolyte drinking powder contains an optimal electrolyte concentration and tastes naturally delicious like orange – the ideal nutrient supply.

Content: 10 or 30 sticks per folding box
Flavour: Orange

ART.-NO. 46-401

Content per 1 stick (10.0 g)					
Sodium	350 mg	Potassium**	175 mg (9 % RI*)	Magnesium	80 mg (21 % RI*)
Calcium**	40 mg (5 % RI*)	Chloride**	100 mg (13 % RI*)		

PURAFIT + INTENSIVE

CHEWABLE TABLETS

purafit + INTENSIVE consists of an optimal combination of micronutrients and the „power substance“ creatine.

– The daily intake of 3 g of creatine increases physical performance in successive bursts of short-term, high intensity exercise.

– Zinc contributes to the maintenance of a normal level of testosterone in the blood. Testosterone in the body is needed amongst other things for muscle building. Pantothenic acid and vitamin B_6 contribute to normal energy metabolism as well as to reducing fatigue and tiredness.

Content: 12 tablets per tube
Flavour: Citrus

ART.-NO. 80-1890

Content per tablet (5.5 g)					
Creatine	3000 mg (-)	Magnesium	56.25 mg (15 % RI*)	Zinc	1.5 mg (15 % RI*)
Vitamin B_6	0.25 mg (18 % RI*)	Pantothenic acid	1.0 mg (17 % RI*)		

PURAFIT FLAVOUR POWDER

FLAVOUR POWDER

Experience maximum flavour with minimal calories, whether you choose dairy or non-dairy products, with our irresistible flavour powder. Designed to enhance the taste of milk, yogurt, quark, and a variety of non-dairy alternatives, our low-calorie formula delivers a burst of deliciousness to your favorite treats. Elevate your sports nutrition and savor every moment with our trusted product, crafted to satisfy your taste buds without compromising your health goals.

Content: 1.5 g flavour powder/150 g Low fat curd/yogurt
Flavour: Strawberry/Vanilla or Chocolate/Hazelnut/Nougat

ART.-NO. 91-12987 Strawberry Vanilla
ART.-NO. 91-12402 Chocolate Hazelnut Nougat

PURAFIT + INTENSIVE BCAA

DRINKING POWDER

Perfect for all sports and training goals.
We suggest to mix 15 g in a glass of water (500 ml) before, during or after training. 2:1:1 ratio of leucine, isoleucine and valine.

– Magnesium contributes to normal protein synthesis.

– Vitamin B_6 contributes to normal protein and glycogen metabolism.

Content: 30 servings of 15 g (450 g per tin)
Flavour: Berry

ART.-NO. 46-397

Content per 1 serving size (15 g)					
BCAA**	4000 mg (-)	Magnesium	187.5 mg (40 % RI*)	Vitamin B_6	1.4 mg (100 % RI*)

****1840-2160mg L-leucine, 880-1080mg L-isoleucine, 880-1080mg L-valine**

*DAILY REFERENCE INTAKES according to the Regulation (EU) No 1169/2011 of the European Parliament
**Please note: Minerals less than 15 % NRV/portion are not considered as a significant amount and should therefore not be declared.

*DAILY REFERENCE INTAKES according to the Regulation (EU) No 1169/2011 of the European Parliament
**Please note: Minerals less than 15% NRV/portion are not considered as a significant amount and should therefore not be declared.

SPORT NUTRITION

PURAFIT + INTENSIVE L-CITRULLINE AND L-ARGININ

EFFERVESCENT TABLETS

This product is a power booster for the muscle pump. Arginine develops its effect immediately. Citrulline is transformed into arginine in the body with a time delay and ensures that the arginine level in the blood remains high for longer.

– Magnesium contributes to normal muscle function.

– Zinc contributes to normal protein synthesis and to normal macronutrient metabolism.

– Selenium contributes to the protection of cells from oxidative stress.

– Vitamin C and vitamin B_2 contributes to normal energy-yielding metabolism.

– Vitamin B_6 contributes to normal protein and glycogen metabolism.

– Vitamin B_{12} contributes to normal homocysteine metabolism and to the reduction of tiredness and fatigue.

– Folate contributes to normal amino acid synthesis.

Content: 10 tablets per tube
Flavour: Lemon

ART.-NO. 79-1401

Content per tablet (10.0 g)					
L-Arginine	3000 mg (-)	L-Citrulline	1000 mg (-)	L-Tyrosine	100 mg (-)
Fenugreek extract	75 mg (-)	Taurine	50 mg (-)	Magnesium**	50 mg (13.33 % RI*)
